Hi David

Wondering how much you are asking for to buy domain names. You did not put a price on them. I suggest you be reasonable.

Mr. Novodor,

You obviously totally misunderstood my letter or are trying to weave it into something else. I offered to sell you WurstkucheSucks.com that is now on line as well as any other domain already registered that is set to be posted after the 10th of this month, and that's only if you cancel the law suit by the 10th. That's all. Your clients still have to buy the domain from me and ask me very nicely to and take my blogs down. This is not a trade.

Your law suit is beyond frivolous bullshit and maybe you didn't notice, but your threats just don't scare me. This is a first amendment case and as an artist, I'll be damned if I'll back down from expressing myself, speaking my mind and posting my opinions from my personal experiences. Especially experiences that I have documented very well with blogs, photos, videos and sound files. Your clients want to run from the truth and
